

**The impact of Sports Premium funding spending at**  
**Heather Primary School**

- Children affected by the funding are participating in more activities.
- Children who cannot attend after-school clubs are able to come to sports partnership lunchtime clubs
- We are able to offer well-attended after-school clubs – for example, tag rugby
- More children are joining these clubs.
- Children are able to take part in a broader range of activities – new age curling and boccia, for example
- We are benefiting from shared resources across the schools' partnership
- CPD – teachers are more confident in their teaching, given their learning through involvement in sports partnership activities
- We are able to plan to prepare children for participation in competitive events within and beyond the sports partnership.
